Client Rmks: Welcome to your new home, where comfort meets charm in a peaceful, park-side setting. Nestled in a serene community, this 2-bedroom, 2-bathroom condo offers the ease of one-level living with elegant touches throughout. Step into the inviting open-concept layout, where the heart of the home - a stunning kitchen adorned with gleaming quartz countertops and stainless steel appliances - flows effortlessly into a warm and airy living space. The covered front porch beckons you to unwind with a morning coffee or evening glass of wine as you gaze out toward lush green parkland and the lively rhythm of nearby baseball diamonds. Each bedroom is a cozy retreat, while the modern bathrooms provide a spa-like feel. With air conditioning ensuring year-round comfort, and TWO dedicated parking spots offering convenience, this home truly has it all. Perfectly positioned near walking trails, shops, and transit, it offers a harmonious blend of nature and neighborhood living.

### COMPLIANCE LETTER FOR CON 1 PT LOT 3 PT 1 AND PT 4, PORT HOPE, ONTARIO

The Port Hope Area Initiative Management Office is providing this formal Compliance Letter for the property at CON 1 PT LOT 3 PT 1 AND PT 4, Port Hope, Ontario which was included in the Property Radiological Survey during 2013. <u>The investigation did not identify historic low-level radioactive waste exceeding the Port Hope Area Initiative Clean-Up Criteria. Therefore, this property does not require a cleanup and there is no need for further investigation by the Port Hope Area Initiative.</u>

The investigation followed procedures and protocols developed for radiological testing and soil analysis. Test results for this property were compared to the Port Hope Area Initiative Clean-Up Criteria. These criteria establish levels to which the cleanup of historic low-level radioactive waste will be carried out. They were approved by the Canadian Nuclear Safety Commission, after consultation with the Municipality of Port Hope and other government stakeholders and citizens.

This Compliance Letter will replace the need for a Radiological Status Letter for this property in the event that it is to be sold. The radiological monitoring services of the Low-Level Radioactive Waste Management Office will no longer be required when carrying out building renovations or excavating soil at this property.

We appreciate your participation in the radiological survey. If you have any questions, please contact the Port Hope Area Initiative Management Office at (905) 885-0291.

Yours sincerely,

Wan V.a.
